## ➤ About Storetrax.com

Storetrax.com is a Web-based service devoted exclusively to meeting the information needs of the retail real estate community. Since its founding in April 1998, the site has grown to be the dominant, nationwide, all-retail real estate listing service, with properties listed in 46 states, totaling more than 670 million square feet. With a focus strictly on retail, Storetrax.com eliminates the information clutter that accompanies trying to cover all aspects of commercial real estate on one Web site.

With free, up-to-the-minute access to a large database of retail properties, Storetrax.com provides the tools necessary to facilitate and expedite transactions among real estate brokers, retailers, and owners. Each listing includes an interactive site plan, a property photo, a tenant list, demographics, and contact information allowing landlords and developers to globally manage their properties, and brokers and retailers to search for and view retail space across the country 24 hours a day.
